

Double Your Acres Per Day

Traveling at 55 mph, you'll be spraying the next field while others are still towing, loading and unloading their trailer, or on the road traveling at 20 miles per hour. Eliminate the need for a 2nd tow vehicle. With more corn & Roundup ready corn being planted each year, these are the most productive sprayers available.

STAHLY ExtraLite® Now Comes in Four Sizes

ExtraLite XL800®

325hp • 800 Gallon tank • Four Wheel Drive

ExtraLite XL1000®

IH 4x4 • 1,000 Gallon tank • Liquid or Dry

ExtraLite XL1200®

Sterling • 1,200 Gallon tank • Two & four wheel drive Pre-emerge, Post-emerge, dry or combo unit with or without two sets of tires.

STAHLY Pre/Post/Dry® Over two hundred in service!

Sterling/Peterbilt • 1,800 Gallon tank • Two & four wheel drive Pre & Post-emerge, dry combo with or without two sets of tires.

Engineered to outlast / outperform anything else on the market!

Pre-emerge spray with Flood Jets on 30" or 60" spacing, then post-emerge spray with Tee Jet fittings on 20" spacing. Add an 8' spreader and you have a year round Pre / Post / Dry applicator which swaps from liquid to dry in under an hour.
