Does it come with the tank and pump necessary to power the Weed Wiper?	Your Self-propelled sprayer should already have a tank and pump that the weed wiper will pull from.	No	No	Yes	No	Yes
MSRP Price Comparison for 10 ft model <small>*Other sizes available</small>	\$679.00	\$599.00	\$1,089.00	\$2,699.00	\$1,089.00	\$2,299.00
Benefits of this model	Less passes in your field and high clearance.	Flexible mounting option and cost efficient route.	Great for weed patches.	Necessary for situations where the weeds rise barely above the crop line. These models have stabilizers that hold the set clearance range.	Adjust on the go, and ability to work in row crops.	Works well in row crop applications.
